BUSCAR EN ESOS DOCUMENTOS ALGUN CONTENIDO RELACIONADO DIRECTAMENTE CON LO VISTO EN CLASE HASTA EL MOMENTO (CAPTURAS DE PANTALLA DE ESE TROZO)

1.2 *Example Programs*

*INTRODUCTION*

### 1.2 Example Programs

Most of the example programs given in the text are ready to be executed and are similar in form to:

```
class Test {
    public static void main(String[] args) {
        for (int i = 0; i < args.length; i++)
            System.out.print(i == 0 ? args[i] : " " + args[i]);
        System.out.println();
    }
}
```

On a machine with the Oracle JDK installed, this class, stored in the file `Test.java`, can be compiled and executed by giving the commands:

```
javac Test.java
java Test Hello, world.
```

producing the output:

```
Hello, world.
```
